MALTA & LIBYA

SAINT JAMES
HOSPITAL

emergency medical training & response services for Malta and Libya from Saint James Lifeskills

Lifeskills Medical works closely with Saint James Hospital in Sliema, Malta, and Tripoli, Libya, providing professional pre-hospital care, in-service training, and health and safety consultation. All courses are available in Malta and Libya through the Saint James Lifeskills Training Centres. Bespoke commercial and industry-specific training is always available.

Lifeskills and Saint James through their joint training centres, have developed a major initiative for the provision of health and safety certified courses for Tripoli, Libya, and together also provide an Emergency Medical Response Service to the whole of Tripoli and surrounding areas.

This service includes A&E/HDU ambulances fully equipped to UK standards, manned by Paramedics and Technicians trained by Lifeskills Medical. Also provided is medical evacuation via air ambulance from remote sites to Tripoli, where patients can be stabilised at the hospital, before being transferred to any destination of choice. Services provided at Saint James Hospital, Libya include:

- Two dedicated surgical theatres.
- 24 hour in-patient facilities with in-house on duty doctors.
- PCR and food microbiology laboratory facilities.
- Advanced diagnostics and surgical eye clinic.
- Echocardiography, trans-esophageal facilities.
- Cardiology with full ECG stress test facilities.
- Radiology clinic with CT scan and bone density facilities.
- Dental clinic with implant unit.
- Endoscopy unit.
- Cosmetic Dermatology Clinic.
- Pre-Employment screening, well-women/well-man clinics.

There are also resident and visiting consultants in ENT, ophthalmology, cardiology, rheumatology, dermatology, urology, gynaecology, orthopaedics, plastic surgery and gastroenterology.

Lifeskills Medical is proud to continue its training and developmental work with Saint James Hospital, Libya, and endorses and recommends the excellent facilities and services provided by Saint James Hospital Group. For further details contact Lifeskills Medical or Alan Azzopardi direct:

As the leading private healthcare organization in Malta, Saint James Hospital has earned an international reputation for excellence in private health care, and for expanding its medical tourism services - the rapidly-growing practice of travelling across international borders to obtain immediate and cost effective private health care.

Every year, more than 75,000 people from the UK travel for treatment abroad, and medical tourism from the UK is on the increase helped further by the European ruling that the NHS must fund treatment in the EU if patients face undue delay. Prices for treatment in Malta have become highly attractive for UK patients. This combined with a warm Mediterranean climate, friendly people, and unspoilt attractions, makes Malta an ideal location for overseas private healthcare.

In Malta, Saint James Hospital Group owns and runs an 80 bed and a 17 bed hospital, a dedicated eye clinic, a dedicated cosmetic dermatology clinic, and an outpatient clinic. Operating theatres are equipped with advanced anaesthesia equipment and have full monitoring equipment. Surgical procedures include hip replacements, hernia repairs, cataract removal, cosmetic and plastic surgery, cardiac surgery, ENT, gynaecological, urology, orthopaedic, ophthalmic, and laparoscopic surgery.

These state-of-the-art hospitals and facilities, are manned by internationally qualified surgeons who are well-experienced in all professional fields. Hospital wards are headed by teams of trained, experienced and helpful consultants, doctors, nurses and health assistants, complemented by their own housekeeping and maintenance staff. All patients have private rooms, and Saint James also provides for post operative physiotherapy which is backed by a well-equipped rehabilitation gymnasium.

Charges include all medical and surgical fees, surgeon and anaesthetist fees, Pre-op consultation, Pre-op blood tests and screenings, Theatre Fees, Surgical Ancillaries, Professional Nursing Fees, Physiotherapy, Post-op consultation, Hospital stay and accommodation, Transfers to and from Airport and Hotel accommodation.
